

Cycle to Work

Help your people enjoy a more manageable way to commute

Our Cycle to Work employee benefit enables your people to save up to 43%* on the latest bikes, high-vis clothing, and safety accessories for their commute to and from work

How the benefit works:

Cycle to Work not only encourages physical activity, it also helps to save you and your employees money. Your staff can make great savings on the latest cycling gear while enjoying the flexibility to either visit a local participating bike shop to select any brand of bike or safety equipment, or browse and order products online through the Vivup website. They are provided with a bike and safety equipment by you for an agreed length of time in return for a reduction in salary. Reductions are made to an employees' gross salary, so they can make savings on Income Tax and National Insurance
